Faculty Banquet on 07th December 2019

Dear Colleague,

It gives us immense pleasure in inviting you for the **6th Edition of Innovations in Oncology Conference** to be held on **Sunday 8th December 2019** at **S P Jain Auditorium, Bombay Hospital, Marine Lines, Mumbai**.

Theme of the conference is **“The Future of Precision Cancer Medicine”**.

Over the past decade, there have been major advancements in the field of precision medicine, leading to exciting new treatments for cancer patients. Much attention has been focused on genomic profiling of tumors to identify genomic alterations that might guide selection of specific therapies for individual patients.

Precision cancer medicine uses targeted drugs and immunotherapies engineered to directly attack the cancer cells with specific abnormalities, leaving normal cells largely unharmed. It's safe to say that precision medicine is now considered one of the pillars of cancer therapy, joining the three longstanding pillars of surgery, radiation therapy and chemotherapy.

We whole heartedly welcome you all once again to “Aamchi Mumbai” – The Dream City.

Regards,

Dr. Bharat Chauhan
Chief Organizing Secretary

Dr. Dinesh Pendharkar
